What people are saying.....

- "After 18 years teaching I thought I knew it all about discipline in the classroom... since I have implemented this program I have new found control of my class and myself, which allows me to teach and once again enjoy my job!" - *Yr 3 Teacher*
- "After only 3 days my class is so much more conscious of what they are doing and I'm talking a lot less. Thanks again for a great course" - *Yr 1-2 Teacher*
- "The program has been implemented throughout this year with statistics showing a better than 50% reduction in the number of suspensions and acts of bullying. What the statistics don't show is the improvement in the positive type behaviours- " the start behaviours" - *Graham Dart, Principal, Hilton Primary School*
- "Staff have indicated that they now feel more in control of the management of behaviour in their classrooms. They feel less frustrated at the end of each day and feel that more time is being spent upon teaching rather than controlling or managing behaviour" - *Principal*

A Course in Classroom Behaviour Management 1-2-3 Magic™ and Emotion Coaching in the Classroom (K-Yr7)

This is a simple classroom discipline programme for children aged 3 – 12 years. It has been introduced into many Western Australian classrooms with excellent outcomes.

Whether implemented in one classroom or across the whole school, the feedback and results obtained from educators are (according to them) very satisfying.

The program is based on two underlying premises.

First – children can be taught ways in which they can respond more flexibly when they have to manage limits imposed on them.

Second – teachers will be more effective and enjoy their teaching more if they have a repertoire of strategies for dealing with non-compliant or disruptive students.

COURSE OUTLINE

1. Introduction.
2. What teachers see and experience.
3. Definition of difficult behaviour and some theoretical perspective on how to deal with behaviour.
4. Three broad approaches to managing behaviour.
5. The 'little adult' assumption.
6. Recognising and sorting behaviour before choosing the intervention.
7. The two biggest mistakes teachers make - too much talking and too much emotion.
8. Changing patterns in teacher student interactions.
9. The resistance to change, what to expect and how to manage it.
10. Intervening – behaviour teachers want to START.
11. Do nothing...about some things.
12. Emotion Coaching.
13. Counting via a signalling method.
14. Practical Steps in getting started.
15. Strengthening the relationship.
16. Counting in action – some practice.
